

EUROPE AGAINST AMERICA.

SCHEMES ATTRIBUTED TO THE CONTINENTAL POWERS.

THE UNITED STATES TO BE COMPELLED TO SHARE THE PHILIPPINES AND HAWAII WITH THEM-ENGLISH FRIENDSHIP UNSHAKEN.

London, May 12.—There are unmistakable signs that the Continental Powers have already taken steps to share in the fruits of the American victory at Manila. Germany has intimated to the United States, it is said here, that she expects to have a voice in the disposition of the Philippines, basing her claim on German interests in those islands. Diplomats who are in a position to know the facts in the case credit the report that Germany may demand exclusive control of Samoa as the price of her acquiescence in American sovereignty over the Philippines, or, as an alternative, Germany may demand one or more of the Philippine Islands, which promises to add to the complications.

If the United States takes possession of Hawaii during the war with Spain it is believed that Europe will insist that the occupation of Hawaii was an incident of the war, and the Continental Powers will desire to include Hawaii in the apportionment of territory, perhaps as a partial offset against the Philippine Islands. In the best-informed diplomatic circles confidence is expressed that the United States will not be expected to acquire such strength in the Far East as is involved in the occupation of the Philippine Islands and Hawaii without reckoning with the Continental Powers. Great Britain, on the contrary, as the Associated Press has the best grounds for asserting, desires the United States to retain the Philippine Islands, even in preference to taking them herself.

An evening newspaper publishes the following from an alleged authoritative source:

At least three of the great Powers are determined to prevent America from bringing the war into European waters. Manila only escaped bombardment through the active intervention of the German Consul, acting under the direct command of the Emperor. When the news arrived from Manila that Commodore Dewey had been ordered to take the place the German residents sent a pressing request to Berlin, demanding that the fleet be sent to the Philippines to protect the lives and property of German subjects. The German Government, however, has refused to do so, and has instead ordered the German squadron at Kiau-Chau Bay, and by tomorrow four German warships will be in Manila. It is believed that the mean time three Ambassadors, not including Sir Julian Pauncefote, have made formal representations to Secretary Day, reminding him that according to our President's message to Congress the United States was the aggressor in the war, and that hence the bombardment of the Cuban coast towns, which will only add to the distress of the natives, will be regarded as an act of aggression. The United States, coupled with this representation, the reminder that the rights of European residents must be respected. President McKinley was impressed with the arguments, and that the German fleet at Manila was ordered to partially raise the blockade of Havana and to seek to destroy the Spanish fleet.

"The St. James's Gazette" this afternoon says: "Important signs of the weakness of Europe, of the fear of Germany at home and aggression abroad, are reflected in London financial circles. Russia is raising a loan of £12,000,000, and more significant still, she is raising it in Germany. The Bank of England is directing its energies to the accumulation of a gold reserve, a fashion without recent precedent; while Japan, not content with the vast sum she received from China on Saturday, is preparing for fresh loans of £10,000,000. The apprehension between Germany and Russia and Austria is very marked."

"All this," "The St. James's Gazette" believes, portends a combination against America and Great Britain, as "we are universally regarded as forming part of this transatlantic aggression on Europe," and it warns Great Britain to "prepare for a struggle which may involve the most important events since the fall of Napoleon." In conclusion, "The St. James's Gazette" remarks:

Europe believes America is trying her strength on Spain, and that her inevitable victory will be followed by similar acts of aggression toward other Powers with interests in the Atlantic and in the Pacific.

GERMANY FLATLY DENIES IT.

Berlin, May 12.—The semi-official "North German Gazette" this afternoon in denying a reported interview between Emperor William and Andrew D. White, the United States Ambassador, relative to the German Government's attitude toward the United States, says:

"The Americans cannot doubt the character of our attitude and our perfectly loyal neutrality after the great official declarations. Let this also be a hint to the English, French and Austrian newspapers which are so anxious to represent the Government and people of the United States as hostile to the President and people of the United States. The imperial policy has a right to feel confident that its more than a century old friendship to a State in which Germany has Germans having and so home will not be disturbed without urgent reasons."

BULLETIN CROWDS RECORD BROKEN. INTENSE INTEREST IN THE FIGHT OFF CARDENAS AND BROWNE FOR THE LOSS OF AMERICAN SAILORS.

By far the largest crowd since the war began assembled outside the newspaper offices in Park Row yesterday. The police, who hitherto have kept order admirably, found that it was all that they could do to keep the passers clear. It was the same in the other parts of the city where bulletin boards are posted. Of course, the news of the fight off Cardenas was the principal cause of this increase in the number of persons who collected to read the latest intelligence. Everywhere there were evidences of suppressed excitement, and the habit of making a public exhibition of itself, except on election nights and during prizefights. There were none of the popular demonstrations which are such a conspicuous feature of critical times in other countries. Nevertheless, he would be only a surface critic who declared that, as a consequence, there was no sympathy shown for any one of those who fell in the hour of the battle. The fact that there was not a man, not even a newsboy, of those who constitute the apparently unimpressionable crowds, who does not follow with interest the course of events, who is not exultant when victory is announced, who does not sorrow for those who fall.

It is easy to make fun of the crude ideas that these multitudes of patriots express, but it must, at any rate, be admitted that the American way is better than the way in some other countries. The American may talk about what he does not understand, but he does not attempt to express his ideas by means of barricades and street riots. He accepts victory calmly. He would accept a good many years of agitation to shake the sturdy good sense of the American people, in which to measure "popular enthusiasm" is not by the conduct, but by the size of the crowd. Judged by this standard, the interest which yesterday was greater than has been displayed before since the war began.

COLUMBIA NOT INTERESTED IN THE WAR.

James Edward Buckley, formerly Acting United States Vice-Consul at Bogota, Colombia, and now a member of a Kansas City syndicate owning a railroad concession in that country, reached Albany on Wednesday on the Atlantic coast. Mr. Buckley, who has been known in the South American countries, and especially so with the citizens of the United States of Colombia, was taken in the war in Colombia," he said, "for the reason that little is heard of it. Whatever sentiment there is in the United States among the educated classes is with the United States."

RESTRICTIONS ON CABLE MESSAGES.

The government authorities have informed all the cable companies that they are forbidden to transmit to or from Spanish officials all code or cipher messages to or from the West Indies, Venezuela and Brazil, and open messages that may contain information in relation to the war in the United States, during the war with Spain.

CHICKAMAUGA DESERTED.

HALF THE TROOPS ALREADY GONE AND THE REST GOING.

GENERAL WHEELER STARTS FOR TAMPA TO TAKE A CAVALRY COMMAND—GENERAL HOWARD'S PEACEFUL MISSION.

(By Telegrams to the Tribune.) Chattanooga, Tenn., May 12.—The army at Chickamauga is rapidly diminishing in numbers. Out of a force which, at round numbers, was placed at six thousand, there are to-night left not more than thirty-five hundred. The 7th Infantry struck its tents and marched to Rossville, about five miles from its camping grounds. A long depot platform was built there on Monday, and was used in the loading of baggage this morning.

The 2d Regiment of Infantry, which has been encamped in the Kelly Field, along the Lafayette Road, marched to Ringgold, seven miles to the south, and took a train on the Western and Atlantic. Both the 2d and 7th are destined for Tampa. The 16th Infantry left to-night for Tampa, and the 1st and 10th Cavalry will get away early to-morrow morning. The other commands will rapidly follow them.

GENERAL WHEELER FOR TAMPA.

General "Joe" Wheeler received notification to-day that he had been ordered to Tampa. There General Wheeler will be placed in command of the cavalry forces that will invade Cuba. He is delighted with the prospect of an active campaign.

A rumor gained circulation in camp to-day that the volunteer army would not come to Chickamauga. In reply to a question, General Brooke said that his information had not been modified in the least by the War Department, and that all he knew about a change in plans was what he had seen in the newspapers.

General Brooke will start at a late hour to-night for Tampa. Some anxiety is felt to-day over the arrival of General Lee. Nothing has been heard from him and General Brooke does not know when to expect him.

This was a kind of holiday at Camp Thomas to-day, with the troops that were not under immediate orders to move. An elaborate programme was carried out on Snodgrass Hill, where the dedication exercises of the Tennessee monuments took place. General John R. Brooke and staff, General "Joe" Wheeler, General O. O. Howard, ex-Governor James D. Porter, General A. P. Stewart and other prominent men took part. The speeches were all eloquent and highly patriotic.

The Soady Coal Company, of Chattanooga, has received instructions to ship not less than twenty-five carloads of coal every day to Tampa until further orders. The coal is being rushed through on fast trains, and loaded aboard warships and transports as fast as possible. The Government is also about to place an order with the same concern for from fifteen thousand to twenty thousand tons of coal.

An order has been issued keeping all soldiers within the confines of Camp Thomas. Last night many of them received leaves of absence to bid goodby to friends in the city, and did not show up until late this morning. As a consequence the guardhouse is crowded today.

MISSION OF GENERAL HOWARD.

General O. O. Howard, who lost an arm in the service in the late war, was on the field today shaking hands with old friends. "I have asked for a command six times. I am hale and hearty and intend to get one before the war is over," said General Howard to-day. Unlike other visits paid to the city of Chattanooga, the mission of General Howard is one of peace. He is accompanied by Major Whittle, and both are members of a Christian commission, which will return to that city with all the other work in the late war. Upon our arrival here we found that the soldiers were going away as rapidly as possible.

As it is my intention to be at the points where the troops are mobilized, we will go to Mobile, and, after establishing the work there, we will go to Tampa. After the volunteers have been mobilized at Chickamauga we will return to this city. We are working in conjunction with the Young Men's Christian Association, which sent tents here to be pitched and occupied as headquarters for the volunteers. We will be in the service, and intend to fight myself if I have to enlist in the Commissary Department."

MANY SUPPLIES ON HAND.

An immense amount of supplies has arrived to-day and were stored away in the Government warehouses. These are being reserved for the volunteers. Some few supplies, which were badly needed, were shipped to Tampa to-day from Chickamauga. The Government warehouse at Chickamauga is full to overflowing, and another one is being built. Dozens of empty storehouses in the city have been rented and filled with supplies. Quartermaster Lee estimated to-day that Chickamauga had a sufficient basis of supplies for the army in the South.

Although Tennessee was the first of the Southern States to erect monuments in commemoration of the battle of Chickamauga, the sister State of Kentucky is not to be far behind in the movement. The Legislature of Kentucky has appropriated \$100,000 for the purpose of erecting a monument in memory of her soldiers who fought on the famous field, and a committee is being organized to select a site upon which this beautiful memorial will be erected. The night a big company of soldiers, who were discharged from the army, and ex-Federals gathered around and exchanged fraternal greetings. General A. P. Stewart presided over the meeting.

AUSTRIA'S NEUTRALITY ASSURED.

Budapest, May 12.—Baron Banffy, the Premier, replying to an interpellation in the Lower House of the Diet, to-day, said:

"The Government has not thought it necessary to issue a formal declaration of neutrality in the present war. Although it is unfortunate that the war could not be prevented, it does not follow that Austria-Hungary is called upon to adopt a special attitude in the matter. The friendly relations of Austria-Hungary with both Powers imply an unconditional neutrality without a formal declaration. Moreover, an official declaration of neutrality would not correspond with Austria-Hungary's practice in similar cases, as she has only three times so during the present century, and then when the belligerents were Austria-Hungary's immediate neighbors."

"The Government is of the opinion that there is no occasion to take special measures for the security of the Hungarians in the United States, as it is quite out of the question that they will experience annoyance or unfavorable treatment in view of the friendly relations of Austria-Hungary with the United States. There is no reason to fear Austria-Hungary shipping will suffer from restrictive or illegal treatment."

"The statement published to the effect that the American Government has demanded of Austria-Hungary an unconditional declaration of neutrality is totally untrue."

ALLEGED SPY COMITS SUICIDE.

DOWNING HANGS HIMSELF IN HIS CELL AT WASHINGTON BARRACKS.

Washington, May 12.—George Downing, alias Rawlins, the man arrested last Sunday under suspicion of being a Spanish spy, hanged himself at Washington Barracks shortly after 9 o'clock to-day morning. A towel and a silk handkerchief were used as the instruments of death. The guard in the corridor had seen Downing a few minutes before sitting on a bed, the alleged spy was hanging from a bar across the top of his cell. Life was from the neck, and the surgeon and steward were called. Their efforts, however, were futile, and Downing soon expired. Yesterday, after speaking of denials of breaking down, and after speaking of his coming trial, the condemned man collapsed completely and his lack of interest in the proceedings was evident. The officer in command of the barracks was told. The man, and granted his request that he be allowed to write to his mother in England. The

letter, he was assured, should be sent if it contained no improper information. After this he became calm and even cheerful. He behaved as usual during the night and this morning up to the time of his death.

The body was removed to the morgue, and, as he has no relatives in this country, it is not yet known what disposition will be made of it. The guards walked the length of the corridor every fifteen minutes, and every one near him was instructed to keep him under surveillance. He watched his opportunity, however, and, when no one was near, put an end to his life.

Downing was an Englishman by birth, and thirty-three years of age. Before coming here he had been a member of the Brooklyn, from which he was discharged because of suspicion attaching to his loyalty, and because he could not get along with the men. He swore to be revenged, and, coming to Washington, it is said, came into communication with one of the Spanish attaches, who hired him to furnish information to the Spanish Government. He was paid \$100,000 for his services, and he had been in Washington, where, it is said, he delivered information to the Spanish Government. He was arrested in Washington. Later a letter addressed to Downing was intercepted which contained promises of \$100,000 for his services, and a search of his rooms revealed evidence which showed that he was thought at first that he could be tried by court-martial, but later it became a question of whether he would be tried by court-martial, and this pending law point was before the Attorney-General for decision.

DYNAMITE IN A CAR OF COAL.

SUPPOSED TO HAVE BEEN PUT THERE THROUGH THE AGENCY OF FRIENDS OF SPAIN.

Salem, N. J., May 12.—While unloading a car of coal at one of the factories in this city to-day, the workmen discovered a large can of dynamite. It was at first supposed that it had been left in the car by miners through a mistake, but those who are in a position to know say it is not the kind of material used in blasting at the mines.

An investigation has developed the fact that the car of coal from which this can was taken was loaded at one of the coal companies bought back for use in filling rail orders. There is a strong suspicion, however, that the dynamite was put in the car by the work of Spanish spies at the mines. This is the second can of dynamite that has been discovered at the factories.

TO HELP SOLDIERS' FAMILIES.

AN ASSOCIATION FORMED BY MEMBERS OF THE CATHOLIC CLUB.

In the course of a conversation at the Catholic Club last night, reference was made to the needs of some of the families of those who had taken up arms in defense of the flag, and as a result a suggestion was made that an association be formed for the purpose of giving aid to the needy families of the soldiers. This suggestion was at once acted upon, and before the members went to their homes the Soldiers' Family Protective Association was organized.

Major John Byrne, of No. 45 Wall st., was elected president. Mr. Byrne is a member of the Catholic Club, and is a member of the Catholic Club. Mr. Byrne is a member of the Catholic Club, and is a member of the Catholic Club. Mr. Byrne is a member of the Catholic Club, and is a member of the Catholic Club.

Major John Byrne, of No. 45 Wall st., was elected president. Mr. Byrne is a member of the Catholic Club, and is a member of the Catholic Club. Mr. Byrne is a member of the Catholic Club, and is a member of the Catholic Club. Mr. Byrne is a member of the Catholic Club, and is a member of the Catholic Club.

RHODE ISLANDS FIRST COMPANY.

Quonset Point, R. I., May 12.—The first company to be formed in the service of the United States was Company F, of Colonel C. W. Abbott's regiment. The action of Company D, 2d Regiment, in refusing to enlist because of the non-acceptance of its captain will not retard the work of securing the regiment's complement, and the Rhode Island Volunteers have decided to join the volunteers in a body.

RED CROSS OFFER ACCEPTED.

Washington, May 12.—(Special.)—Ex-Vice-President Morton and Bishop Doane, of New York, called on the Secretary of War and the Navy and the Surgeon-General to-day in behalf of the Red Cross organizations of the United States, and requested that those organizations be allowed to assist the combined medical corps of the Army and Navy in their operations in the Philippine Islands.

RACEHORSE SOLD FOR \$125,000.

London, May 12.—It is asserted here that the Russian Government has purchased the celebrated Irish racehorse Galtee More for £25,000 (\$125,000).

Galtee More was bred by John Gubbins, a well-known Irish sportsman, who inherited nearly a million sterling from an uncle who had accumulated a vast fortune in the East. Galtee More was a chestnut horse, and was one of the seven horses that have won the Triple Crown of the English turf. The 2,000 Guineas at Newmarket, the 1,000 Guineas at Epsom, and the 2,000 Guineas at Ascot.

TO CHOOSE THEIR OWN ALLEGIANCE.

HOW CHILI AND PERU PROPOSE TO SETTLE A DISPUTE OVER TWO PROVINCES.

Lima, Peru, May 12.—Congress has been convoked in extraordinary session for June 12, in order to discuss the protocol of B. E. Bingham, Vice-President of Peru, which arranges for a plebiscite of the inhabitants of the contested provinces of Tacna and Arica, to decide whether they belong to the view of settling the long-standing dispute between Peru and Chili.

ITALIAN MURDERER CAPTURED.

Halifax, N. S., May 12.—(Special.)—An Italian detective from New York arrived here to-night, identifying and took back to that city the Italian who was arrested yesterday by Detective Power, of Halifax, charged with the murder of Contractor Ryan, of New-York.

The prisoner was supposed to be Arsenale Oliverio. When arrested, the detective killed Ryan, but later it was found that he had shot another Italian in a saloon quarter. That is correct, and when the New York detective arrived here he found that the Italian had been shot down in Italian clothes as "Frank the Blacksmith," who had murdered Hattie Galtie in a New York saloon. The prisoner will be sent to New York to-morrow.

THE WEATHER REPORT.

YESTERDAY'S RECORD AND TO-DAY'S FORECAST.

Washington, May 12.—There has been a general rise in the temperature in the central valleys and the lake regions. A barometric depression exists in Eastern Canada. The weather is cloudy in New-England and the Middle Atlantic States. There is a small area of cloudiness over the central States. A cold front is moving down the Ohio Valley, the Middle and North Atlantic States and lower lake region. The temperature conditions have undergone little change. Showers will be generally fair elsewhere. The weather is cloudy in New-England and the Middle Atlantic States. There is a small area of cloudiness over the central States. A cold front is moving down the Ohio Valley, the Middle and North Atlantic States and lower lake region. The temperature conditions have undergone little change. Showers will be generally fair elsewhere. The weather is cloudy in New-England and the Middle Atlantic States. There is a small area of cloudiness over the central States. A cold front is moving down the Ohio Valley, the Middle and North Atlantic States and lower lake region. The temperature conditions have undergone little change.
